### ANOTHER NEWSPAPER.

A GENTLEMAN FROM KANSAS TALKS OF STARTING ONE.

Was in The City Several Days Last Week Looking Over The Field.

From present indications Jasper is to have another newspaper. Mr. Jewett, of Yates Center, Kansas, was in the city several days last week looking over the field with a view of either buying out the Jasper News or starting a new paper on his own hook. He failed to make a deal with the News and it is supposed that he is now buying a new plant to be brought to Jasper. He expects to put in quite an extensive plant.

We've just got in another shipment of Harness the best ever shown in Jasper and when we price them to you you will know they are not in the trust.

### NO TRUTH IN IT.

The Report Was A Mistake About Prof Rowe.

There was a report in Jasper a short time ago to the effect that Prof Rowe, who is now superintendent of the Granby schools, had whipped a boy so severely that he died. The reports further said that Mr Rowe was arrested and a great deal of excitement prevailed over the matter.

Prof Rowe writes the News that "there is absolutely nothing in the reports."

Mr Rowe further says: "I have never been arrested, never have even been threatened. There was a lot of talk, but the boy and his several people just simply misrepresented facts. The people here declare that the city has never seen a more prosperous school."

Mr. Rowe says that Misses Ruth Bowman and Goldin Palmer, who are graduates of the Jasper High School, have done fine work as teachers in the Granby schools the past term.

The Professor is crossing says: "Mrs Rowe and I expect to visit in Jasper in the near future. Don't forget that we are proud of that school building, just as you are."

### WHAT AILS THEM?

Judge Schooner Lost Fourteen Steers In Two Days.

A mysterious ailment has appeared in the fine herd of cattle of Judge Schooner, the well known farmer and stockman living southeast of this city.

On Saturday morning his two year old steers were all well and hearty, but Saturday evening they began to die and by Sunday night 14 were dead of some mysterious ailment.

Two veterinaries were sent for but they are at a loss to tell what is the matter. One theory was that the cattle were poisoned by eating green cockle burrs but this seems to have been disproved by an examination of the contents of their stomachs, and there is no satisfactory theory that can be got hold of.

Alvin Wood who was called home by the death of his brother's wife returned to Battle Creek, Mich., Thursday evening to resume his studies at the medical college at that place. Mr. Wood was a pleasant caller at this office while in city. He expects to complete his course in two years.
